Customers need to go to HSBC branch to enable Non-counter Transfer Service. After opening the service, customers could adjust the limit within the maximum settable limit by the following methods, or contact hotline or visit any HSBC branch in mainland China.

To manage limits
If you wish to adjust any of the following limits, please log on to Personal Internet Banking or Mobile Banking:
- Daily transfer limit to your own accounts (CNY): 0.00 minimum - 5,000,000.00 maximum
- Transfer to third party predesignated payee/Daily(CNY): 0.00 minimum - 2,000,000.00 maximum
- Transfer to third party non-predesignated payee/Daily(CNY): 0.00 minimum - 1,000,000.00 maximum
- Number of transfers to third parties/Daily: 0 minimum - 10 maximum
- Third party Express Payment/Daily (CNY): 0.00 minimum - 20,000.00 maximum
- UnionPay online payment/Single transaction (CNY): 0.00 minimum - 10,000.00 maximum
- UnionPay online payment/Daily (CNY): 0.00 minimum - 50,000.00 maximum

Automated reset limits to zero
Your third party transfer limits to non-predesignated payee accounts through HSBC Personal Internet Banking will be reset to zero if:
- You have not logged on to the respective channel for 12 months
- You have not made a non-predesignated third party payment on the respective channel for 12 months
General security tips for Personal Internet Banking, "HSBC" Mobile Banking, WeChat Service Account, Phone Banking and ATM Password / PIN / User name / Security Device/Mobile Security Key protection advice

1. Security tips
   For your own security, it is important that you keep your password/PIN/Username confidential. You should also change your password/PIN regularly.
   - Make sure no one sees your password/PIN/Username at all times
   - When choosing your password/PIN, do not use your identity card number, telephone number, mobile number, birthday or any commonly used number sequences such as 888888 and 123456, or add 00 to these numbers
   - Do not use the same or similar password/PIN/Username for different banking or online services
   - Change your password/PIN regularly
   - Memorise your password/PIN/Username and never write it down. Keep it private and do not disclose it to anyone
   - Under no circumstances will our Bank staff, the police or any genuine parties ask for your password/PIN
   - HSBC will never contact you and ask for your log on details and personal information for Personal Internet Banking, phone banking or ATM services. These include your Username, password, PIN, account number, identification/passport number, address, phone number, etc.
   - HSBC will never disclose such information in our emails other than your name for personalisation purposes, nor ask you to confirm any personal data by replying to our email*
   - When you call us, you may be asked to input your Personal Internet Banking Username or input your phone banking PIN for authentication. Do not mention your PIN or Personal Internet Banking password during the call as no call centre representative will ever ask for this over the phone. If you have forgotten your PIN, a few questions relating to your personal information, NOT your passwords or PIN, will be asked for authentication
   - Keep your Security Device in a safe and secure place
   - Never personalise your Security Device in a way that would allow others to specifically associate it with you (i.e. name, address, etc.)

* The only exception is when you interact with our customer service representatives through Message Centre in HSBC Personal Internet Banking, which may involve some personal information. In such cases, the information is transmitted and stored via an encrypted secure online platform. You need to use your Personal Internet Banking Username, password and security device to read and send such information.
Personal Internet Banking Precautions

HSBC Personal Internet Banking usage precautions

- Protect your computer
- Install anti-virus/anti-spyware software on your computer to protect it from known viruses or spyware. The software should be updated regularly to ensure that you have the latest protection
- Install a personal firewall on your computer. It is designed to help prevent hackers from accessing the computer it is installed on. When installing such software, follow the manufacturer’s recommendations for “conservative” access control
- Download and apply security updates and patches to the PC/browser when they are made available
- Protect yourself
- Never access Personal Internet Banking from public places or from shared computers such as those in cyber cafes or public libraries
- Close all browser windows before you log on to Personal Internet Banking. While you are in a Personal Internet Banking session, we recommend that you do not open other internet browsers and access other websites. This can help to ensure your financial information is protected and blocked from unauthorised access via another website
- Check your last log on date, time and status displayed on “My HSBC” page after you have successfully logged on to Personal Internet Banking. If you suspect anything suspicious, please contact HSBC immediately
- Use the “LOG OFF” button to exit. Do not exit by closing the window
- Never leave a Personal Internet Banking session unattended at any time
- Disconnect from the internet when you have finished using it. Avoid leaving your connection on, especially with broadband access, unless you’re actively using it

Ensure "HSBC" Mobile Banking and WeChat Service Account security

- Please download and install "HSBC" app by an official channel.
- Do not disclose personal identification documents, mobile phone numbers, bank cards, SMS verification codes, etc. to others.
• Avoid sharing with others on your mobile device. Sign in with your own phone or tablet. The automatic lock screen and the lock screen password should be set for the mobile phone, so that even if someone else gets the mobile phone, it cannot be opened for use, and the security is fully guaranteed. Mobile phones or tablets that have been cracked or rooted should not be used.
• If your mobile device supports biometrics, such as fingerprint login or face login, you therefore should ensure that your Mobile Device only stores your own fingerprint(s), facial map, or other biometric data, and will not store anyone else’s Biometric Credentials.
• When using Wi-Fi wireless Internet access, use a trusted Wi-Fi wireless network or service provider and enable security measures, such as using Wi-Fi Protected Access (WPA; developed by the Wi-Fi Alliance to secure wireless computer networks.)
• When you following HSBC official WeChat Service Account "汇丰中国客户服务", please make sure it is verified by Tencent. In order to protect your information, please clear up the history of WeChat public account regularly. When your WeChat password is found to be stolen, it is necessary to promptly contact the Tencent Anti-fraud Center (110.qq.com).
• Please make sure your mobile device is in your sight when you logon HSBC digital channels through them. Please click "Exit or logout" button when you want to exit.
• Please make sure that your current mobile phone number on the bank is correct. This will not only enable you to use some of HSBC digital channel functions normally, but you will also receive timely reminders when an abnormal login occurs in the online banking account.

4 Phone Banking Precautions
• Never access Phone Banking from shared phones as such device may have a memory function to store your personal account number and Phone Banking PIN
• Avoid accessing Phone Banking through phones equipped with special management systems, as these systems may record call data. For example, the hotel’s telephone system will save the guest’s call data for account entry
• Be alert only use phones located in secure and reputable places especially if you intend to perform phone banking transactions

5 ATM Precautions
• Keep your ATM card in a safe place. Report card loss immediately through our HSBC Advance hotline or visit any HSBC branch in mainland China (if your ATM card is issued by an HSBC Group member)
• Never give your ATM card to anyone
• If you observe any suspicious device (e.g. pinhole camera) or activity (e.g. shoulder surfing), contact our Bank staff during office hours or call HSBC Advance 24-hour hotline: 400-820-8878 (please dial mainland China country code + 86 if you are calling from overseas or HK, Macau, Taiwan).
• Cover the keypad while you enter your PIN.
• Remember to remove all your belongings, e.g. ATM card, cash and receipt, if any, before you leave the ATM.
• Cancel the transaction if you notice anything suspicious or if any other problem arises.
• Do not accept assistance from strangers. If you encounter any problems at the ATM, contact the Bank.
• Count your cash only in secure surroundings.
• If you want to keep a record of the transaction, please keep your receipt and do not leave it at or near the ATM.
• Keep your ATM card in a safe place.
• Do not place your card close to any magnetic material, e.g. electronic devices, mobile phones, etc.
• When you are instructed to take your card from the ATM machine, do not push it back into the “Insert Card” slot.

6 Debit Card
• Please keep your PIN safe. Disclosure of your PIN will put you at great risk.
• Make sure nobody sees you entering your PIN when you are changing it at an ATM.
• Do not use your ID card number, birthday, telephone number or commonly used sequences (e.g. 888888, 123456, 000000, etc.) as your PIN.
• Memorize your PIN and keep it confidential.
• Do not write your PIN down. If you have to do it, please keep the note separate from your debit card.
• Change your PIN regularly.
• Do not share your PIN with anyone, including HSBC employees.
• Keep your debit card safe. If your debit card is lost, stolen or forged, please contact any HSBC China branch immediately, or call HSBC Advance 24-hour hotline: 400-820-8878 (please dial mainland China country code + 86 if you are calling from overseas or HK, Macau, Taiwan). You should also report the case to the police immediately. If you find your lost or stolen debit card after the incident, please inform the bank immediately and do not use the card.
• Never give or lend your debit card to anyone else.
• Do not place your debit card close to magnetic materials, including mobile phones and other electronic devices.
• Keep your debit card and identity documents separate.
1. **Total Relationship Balance (TRB)** as specified in the Tariff of Accounts and Services for Personal Customers issued by the Bank from time to time. Your joint account total relationship balance will be included into your sole account TRB when conduct your sole account TRB’s system calculation. The “Total Relationship Balance” mentioned herein refers to the combined monthly average balance of all the accounts under the same customer number, which includes:

- CNY / foreign currency deposits;
- Investment principal amount(s) of Dual Currency Investment(s) and Structured Investment(s) (Capital Protected at Maturity / Partially Capital Protected at Maturity);
- Market value of other investment product(s) (including Overseas Investment Plan);
- Point of time cash value of traditional life insurance product(s) (including annuity insurance, whole life insurance, endowment insurance, critical illness insurance and universal life insurance) as at day end of the third to last working day of the current month;
- Point of time market value of investment account(s) under investment linked insurance product(s) as at day end of the third to last working day of the current month.

Remarks and notes:

1. The insurance product(s) as mentioned above will be included in the Total Relationship Balance calculation of the current month if the relevant policy effective day is on or before the third to last working day of the current month and will start to be included in the Total Relationship Balance calculation from the next month if the relevant policy effective day is on or after the second to last working day of the current month.
2. The Total Relationship Balance calculation doesn’t include protection insurance product(s) (protection insurance product(s) refer to term life insurance, credit enhancement insurance and general insurance such as travel insurance, accident insurance and health insurance).
3. Working day refers to such working day in Mainland China as determined pursuant to the announcement or provisions issued by the relevant governmental organization in Mainland China.
4. The above mentioned cash value or market value of insurance product(s) will be provided to the Bank by the relevant insurance company(ies), and the Bank takes no liability for the information and data provided by the relevant insurance company(ies).
2. The Monthly Service Fee will be charged to customers if not meeting the prevailing criteria starting from the following month after account opening, subject to any restrictions under applicable laws and regulations.

3. Predesignated is required for transfer between joint accounts. No transfer in foreign currency is allowed between joint accounts.

4. Please visit any HSBC branch in mainland China to pre-register third party accounts.

5. Customers need to go to HSBC branch to enable Non-counter Transfer Service. If a customer choose not to open Non-counter Transfer Service during account opening, but do have Non-counter Transfer need when using the account, customer could visit HSBC branch and complete the “Non-Counter Transfer Service Enable/Change Request Form”.

6. For fees and charges of using debit card at ATMs and card replacement, please contact any HSBC branch in mainland China, our HSBC Advance Hotline or visit HSBC Internet Banking.

7. For other limits outside mainland China please visit HSBC website at www.hsbc.com.cn
