Setting limits for the Premier Junior Account

You can set limits on how much your child spends, withdraws or transfers. To ensure the safety and the interests of our Premier Junior Account customers and to give you, as parents, some control of your minors’ activities, you can now set or change limits of the Premier Junior Account, anytime, either by coming into the Bank or using HSBC Mobile Banking. Limits you can set through visiting ATMs, branches and Mobile Banking, include: the Daily RMB cash withdraw limit of debit card, transactional RMB cash withdraw limit of debit card, daily overseas FCY cash withdraw limit of debit card, transactional overseas FCY cash withdraw limit of debit card, daily POS limit of debit card, transactional POS limit of debit card and daily third party payment platform transfer limit.

Limits must be set immediately after the Premier Junior Account is successfully opened.
You can log on to HSBC China Mobile Banking App - Premier Family and click on your children’s profile and apply for the administration authority to manage their limits. However, only one person between you and your spouse can manage the transaction limits for your children in Mobile Banking. The system will default to the earliest applicant. If you need to change the administrator, you can cancel your administrator’s rights in the system, and your spouse can apply for administration authority. In addition, you can also choose to visit an HSBC branch to fill in the Premier Junior Account Limit Setting Form.

Under the authority of your adult family members, you can also set debit card spending limits, withdrawal limits, and transfer limits to third-party payment through HSBC China’s Mobile Banking - Premier Family.

A. Global View and Global Transfer

Global View provides HSBC Premier customers with a new way to conveniently monitor balances for all your global HSBC accounts.

- With Global View, you can conveniently view your account balances in one place by logging on to HSBC Premier Personal Internet Banking to access Global View and Global Transfer, at any time.
- In order to view all of your account balances across HSBC entities worldwide, you can link up by selecting “Add/Remove a country or territory” in “My banking” menu. You will need to complete a one-off linking process to other Personal Internet Banking profiles after prompting the security credentials.
- Linking will be effected in all entity systems involved, e.g., linking the U.S. profile to the China profile allows access via either the China or U.S. Internet Banking service.
- You can link profiles for HSBC non-Premier relationships as well as HSBC Premier relationships. You can access Global View via an HSBC Premier country’s Personal Internet Banking system and see the account balances for the HSBC non-Premier country displayed as well.
- When the requested Personal Internet Banking data is blocked, suspended or temporarily suspended, or the Personal Internet Banking service has expired, the system will display a message indicating that the connection failed.
- You can remove account information for a country or territory so that it no longer displays in your Global View accounts overview.
- If you need to transfer funds to your linked overseas HSBC account via Personal Internet Banking, just select the countries or territories in “Select Country/Territory” that contain the accounts that you want to transfer from and to. Then you will be directed to “Transfer Details” to choose the currency, amount and purpose of the transfer. Confirm the details of your Global Transfer and click Confirm Transfer to complete the transfer request.

General security tips for Personal Internet Banking, Phone Banking and ATM Password/PIN/User ID/Security Device/Mobile Security Key protection advice.

B. Security tips

For your own security, it is important that you keep your password/PIN/User ID confidential. You should also change your password/PIN regularly.

- Make sure no one sees your password/PIN/User ID at all times.
- Keep your PIN/password and your ATM card separate at all times.
- When choosing your password/PIN, do not use your identity card number, telephone number, mobile number, birthday or any commonly used number sequences such as 888888 and 123456, or add 00 to these numbers.
- Do not use the same or similar password/PIN/User ID for different banking or online services.
- Change your password/PIN regularly.
- Memorise your password/PIN/User ID and never write it down. Keep it private and do not disclose it to anyone.
- Under no circumstances will our Bank staff, the police or any genuine parties ask for your password/PIN.
- HSBC will never contact you and ask for your log on details and personal information for Personal Internet Banking, phone banking or ATM services. These include your User ID, password, PIN, account number, identification/passport number, address, phone number, etc.
- HSBC will never disclose such information in our emails other than your name for personalisation purposes, nor ask you to confirm any personal data by replying to our email.
- When you call us, you may be asked to input your Personal Internet Banking User ID or input your phone banking PIN for authentication. Do not mention your PIN or Personal Internet Banking password during the call as no call centre representative will ever ask for this over the phone. If you have forgotten your PIN, a few questions relating to your personal information, NOT your passwords or PIN, will be asked for authentication.
- Keep your Security Device in a safe and secure place.
- Never personalise your Security Device in a way that would allow others to specifically associate it with you (i.e., name, address, etc.)

All personal information is protected and blocked from unauthorised access via another website.

The only exception is when you interact with our customer service representatives through HSBC Personal Internet Banking, which may involve some personal information. In such cases, the information is transmitted and stored via an encrypted secure online platform. You need to use your Personal Internet Banking User ID, password and security device to read and send such information.

C. Personal Internet Banking Precautions

- Protect your computer.
- Install anti-virus anti-spyware software on your computer to protect it from known viruses or spyware. The software should be updated regularly to ensure that you have the latest protection.
- Install a personal firewall on your computer. It is designed to help prevent hackers from accessing the computer it is installed on. When installing such software, follow the manufacturer’s recommendations for “conservative” access control.
- Download and apply security updates and patches to the PC/browser when they are made available.
- Protect yourself.
- Never access Personal Internet Banking from public places or from shared computers such as those in cyber cafes or public libraries.
- Close all browser windows before you log on to Personal Internet Banking. While you are in a Personal Internet Banking session, we recommend that you do not open other internet browsers and access other websites. This can help to ensure your financial information is protected and blocked from unauthorised access via another website.
- Check your last log on date, time and status displayed on “My HSBC” page after you have successfully logged on to Personal Internet Banking. If you suspect anything suspicious, please contact HSBC immediately.
- Use the “LOG OFF” button to exit. Do not exit by closing the window.
- Never leave a Personal Internet Banking session unattended at any time.
- Disconnect from the internet when you have finished using it. Avoid leaving your connection on, especially with broadband access, unless you’re actively using it.
D. Phone Banking Precautions

- Never access Phone Banking from shared phones as such devices may have a memory function storing your personal account number and Phone Banking PIN.
- Avoid accessing Phone Banking through phones equipped with special management systems, as these systems may record call data. For example, the hotel’s telephone system will save the guest’s call data for account entry.
- Be alert – only use phones located in secure and reputable places especially if you intend to perform phone banking transactions.

E. ATM Precautions

- Keep your ATM card in a safe place. Report card loss immediately through our HSBC Premier hotline or visit any HSBC branch in mainland China (if your ATM card is issued by an HSBC Group member).
- Never give your ATM card to anyone.
- If you observe any suspicious device (e.g. pinhole camera) or activity (e.g. shoulder surfing), contact our Bank staff during office hours or call our 24-hour HSBC Premier hotline on +86 400-820-8828.
- Cover the keypad while you enter your PIN.
- Remember to remove all your belongings, e.g. ATM card, cash and receipt, if any, before you leave the ATM.
- Cancel the transaction if you notice anything suspicious or if any other problem arises.
- Do not accept assistance from strangers. If you encounter any problems at the ATM, contact the Bank.
- Count your cash only in secure surroundings.
- If you want to keep a record of the transaction, please keep your receipt and do not leave it at or near the ATM.
- Keep your ATM card in a safe place.
- Do not place your card close to any magnetic material, e.g. electronic devices, mobile phones, etc.
- When you are instructed to take your card from the ATM machine, do not push it back into the “Insert Card” slot.

F. Debit Card

- Please keep your PIN safe. Disclosure of your PIN will put you at great risk.
- Make sure nobody sees you entering your PIN when you are changing it at an ATM.
- Do not use your ID card number, birthday, telephone number or commonly used sequences (e.g. 888888, 123456, 000000, etc.) as your PIN.
- Memorize your PIN and keep it confidential.
- Do not write your PIN down. If you have to do it, please keep the note separate from your debit card.
- Change your PIN regularly.
- Do not share your PIN with anyone, including HSBC employees.
- Keep your debit card safe. If your debit card is lost, stolen or forged, please contact any HSBC China branch immediately, or call HSBC 24-hour Premier hotline on +86 400-820-8828 (mainland China); +86 21-3888-8828 (outside mainland China or using a mobile phone). You should also report the case to the police immediately. If you find your lost or stolen debit card after the incident, please inform the bank immediately and do not use the card.
- Never give or lend your debit card to anyone else.
- Do not place your debit card close to magnetic materials, including mobile phones and other electronic devices.
- Keep your debit card and identity documents separate.
