Notice on Adjustment of Fees for RMB Domestic Inter-bank Transfers via Counter in Xi'an and Chongqing

Dear Customer,

Effective February 18, 2027, HSBC Bank (China) Company Limited ("HSBC China" or "the Bank") will adjust the handling fees for RMB domestic interbank transfers processed via counter services in Xi'an and Chongqing. Following this adjustment, the fee structure in these two regions will be aligned with the standard rates applicable to the same services at counters across the rest of the country.

You may log in to the HSBC China website at www.hsbc.com.cn to view the latest "Fees for Wealth and Personal Banking Accounts and Services" for detailed information on our current fee schedule.

At the same time, we also recommend using our Mobile Banking service (the "HSBC" app) to handle Renminbi domestic interbank transfers. This method offers a more convenient experience and is free of charge.

Thank you for your continued support and trust in HSBC China.

Should you require assistance or have any questions, please contact our hotline on (+86) 21-95366 or consult your Relationship Manager.

HSBC (China) Company Limited
9 November 2026

Note: The adjustment of the above fees may be further delayed due to system or other reasons. The adjustment time listed in the text is subject to the actual system effective time.
